Utah Chapter

Our Mission: Provide our members opportunities for career development and networking with peers. Advance and promote the profession by creating awareness of the skills and abilities of IT audit and security Professionals.

President's Message

Hello Utah ISACA Members,

We had an excellent training class on PCI in January. We would like to thank Carol Stucki for coming to present to us. We will continue to hold the chapter meetings in the Joseph Smith Building through the next two months until the renovations on the Lion House are complete.

We are looking to hold our Spring Seminar in May this year. We have some great ideas and contacts we are working with and we will have more information about the specifics next month. As usual we are always open to your feedback.

We will be holding a CISA review course for those of you that are looking to take the CISA test this summer. Please notify one of the board members if you or someone you know is interested. We will have details on the course on our website soon.

Our monthly speakers are lined up for the next few months, so please join us to network with your peers and learn the latest and greatest topics.

Sincerely,
Kyle Chugg

Upcoming ISACA Training Weeks

Training Week events include in-depth coverage of the most important industry topics by world-renowned presenters, networking opportunities and valuable continuing professional education hours.

Upcoming Training Week courses will include the following:

- Fundamentals of IT Auditing
- IT Audit Practices
- Information Security Management

Next USA Location: 26 February-2 March 2007 – Washington DC

Please visit www.isaca.org/trainingweek for more information on future Training Week events.

Website: www.isaca-ut.org/registration.html

You will be charged for reservations not canceled at least 48 hours in advance of the luncheon.

Topic Details

Want to see AppScan for yourself? Don't miss this chance!

Join Watchfire's Armando Bioc, Security Consultant, for an informative discussion and live demo on Watchfire's web application security testing product, AppScan.

AppScan includes features that deliver new remediation capabilities, key regulatory compliance reporting, and a redesigned user interface. AppScan also includes productivity enhancements that dramatically improve, automate and streamline users' ability to quickly find, remediate and manage web application security vulnerabilities.

Speaker Biography

Armando Bioc is a Security Consultant with Watchfire. Mr. Bioc provides presales technical support for AppScan sales, training for AppScan customers, security consulting within the web application software development lifecycle and web application vulnerability assessments. Mr. Bioc has been with Watchfire since 2000.

Journal Update

The Information Systems Control Journal is seeking articles for volume 4, 2007, to be issued in July 2007. The copy deadline for volume 4 is 23 March 2007, and the theme is **Emerging Issues of the Year**. For more information, please view the 2007 editorial calendar at www.isaca.org/journal or e-mail jblader@isaca.org.

CISSP Exam Prep Course

The local ISSA chapter is trying to gauge interest for a local CISSP exam prep course for the upcoming May test. The details are as follows:

Date: April 26-28, 2007

Place: Utah Retirement Systems Building (downtown)

Instruction: Mr. Tom Peltier and Associates.

Cost: ISSA Members - \$850

Non ISSA Members - \$1095

Please contact Torsten Larson if you are interested.

Phone: 801-442-5294

Email: torsten.larson@intermountainmail.org
